- ClickUp
- TDD/BDD
- Scrum
- Agile
- Excalidraw

## RIGHT TO WORK

- United Kingdom (settled status, eligible to work in the UK)
- EU (Italian citizenship)
- Russia (Russian citizenship)

## ABOUT ME

Junior Frontend Developer with a unique blend of skills from journalism and PR, bringing a distinctive, user-centred approach to building intuitive and impactful web applications.

Comfortable with Agile methodologies, fully understanding the distinction between Agile as a mindset and Scrum as a framework. Confident with TDD, BDD and other abbreviations.

## EXPERIENCE

### Web Content Strategist & UX Designer

06.2024 – 07.2024

[University of Kent](#)

Revamped the Higher and Degree Level Apprenticeships website section. Optimized content structure, user journey, and navigation. Designed and implemented a new site layout using the internal editor, enhancing accessibility and user experience. Delivered the project within a 6-week deadline.

Link to completed project:

[Higher and Degree Level Apprenticeships Section](#)

### Front-End Intern

05.2024 – 07.2024

[HappierLeads](#)

Created and optimized new pages, forms, and UI for a B2B lead identification app. Resolved bugs and implemented improvements using React, Redux, and Next.js. Collaborated via Slack and managed tasks in ClickUp.

## PROJECTS

### Personal Portfolio (React & Bootstrap)

A showcase of my skills in responsive design and frontend development.

Deployed app: [chernova.dev](https://chernova.dev)

GitHub repo: [React-App-Portfolio](#)

### Answer Sphere

A web app powered by OpenAI, developed by a team of 5.

Deployed app: [answersphere.netlify.app](https://answersphere.netlify.app)

GitHub repo: [answersphere](#)

### Grin And Gin

A cocktail recipe discovery app built by an international team during a bootcamp.

Deployed app: [Grin And Gin](#)

GitHub repo: [Grin And Gin GitHub](#)
